ORCID: 0009-0004-5369-1594 · Google Scholar

RESEARCH PROFILE

Applied economist working at the intersection of **causal inference**, **digital trace data** and **geospatial / Earth observation data** for the evaluation of public policies, with active research lines on digital transformation, institutional quality, and innovation. Recent work: the MESWI, an equitable and sustainable well-being index for all Italian municipalities (49 indicators, 12 domains).

Methods: Causal inference (*generalized and staggered Difference-in-Differences, panel data econometrics*); machine learning and Natural Language Processing (NLP) (*text mining, embeddings, supervised classification*); large-scale digital trace data (*web scraping, social media, high-frequency data*) integrated with administrative data; geospatial and satellite data (*Google Earth Engine, night-time lights, land cover, NDVI, climate data, spatial identification and inference*).

Geospatial data infrastructure (since 2024): panel database of all 7,900 Italian municipalities from 20 families of satellite and administrative sources (VIIRS night lights, GHSL, WorldCover, Hansen GFC, MODIS, Sentinel-5P, ERA5-Land, AlphaEarth embeddings) via the Earth Engine API.

Web GIS and dashboards (portfolio): the Night Lights Observatory, an interactive map of NASA Black Marble night-time radiance for all 7,903 Italian municipalities, 2012–2024, with growth and decline by inner-area class (MapLibre GL, own data pipeline); the Climate Observatory, 75 years (1951–2025) of ERA5-Land temperature, precipitation and snowfall for every municipality as anomalies against 1961–1990, with warming by elevation band and region; the Reach Observatory, car access to hospitals, upper-secondary schools and railway stations for every municipality, routed with OSRM on OpenStreetMap; a story map on the 2023 Emilia-Romagna flood, from Maxar pre/post imagery and a calibrated sediment mask validated against Copernicus EMS to building exposure and house-price effects by OMI zone; with Instant Analytics, the MESWI territorial observatory (7,899 municipalities) and a daily-updated dashboard on fuel prices across Italian provinces from MIMIT Osservaprezzi data.

EDUCATION

PhD in Economics (XXXVIII Cycle), Doctor Europaeus mention – *University of Molise* — *Nov 2022 – Apr 2026*
Thesis: *Shocks, Public Policies, and Technological Progress: Four Essays on the Drivers of Innovation.*
Visiting PhD Researcher at Universitat Politècnica de València (UPV), Spain, Jan–Jul 2024 (*host: Prof. Josep Domenech*).
Supervisor: Prof. Giuliano Resce

MSc in Management, Entrepreneurship & Innovation, summa cum laude – *University of Molise* — *Sep 2017 – Apr 2019*
Thesis: *La relazione tra vincoli finanziari e innovazione: un'analisi su un campione di imprese* (The relationship between financial constraints and innovation: an analysis of a sample of firms).
Supervisor: Prof. Filomena Pietrovito

RESEARCH & PROFESSIONAL EXPERIENCE

Post-doctoral Researcher – SAGE-Rise project (WP5, Data-driven Technologies for Evidence-based Policies) – *University of Molise* — *Sep 2026 – Present*
Technological solutions for active ageing – validation in real-world settings (MUR D.D. 307/2025, SAGE-It programme, 24 months): territorial dashboard on access to services in ageing communities, indicators of spatial and social vulnerability, web scraping and NLP, predictive models of needs.
Supervisor: Prof. Giuliano Resce (WP5 leader)

Research Assistant – *Regione Lazio – Regional Statistical System for Policy Support* — *May 2025 – Jul 2026*
Evaluation of the economic sustainability of Lazio municipalities.
Supervisor: Prof. Cecilia Tomassini

Research Assistant – PRIN Project – *University of Molise* — *May 2024 – May 2025*
Evaluation of the Italian healthcare system in the post-pandemic context: efficiency, equity, territorial disparities.
Supervisor: Prof. Giuliano Resce

Research Assistant – Food Insecurity Trends Project – *University of Molise* — *Aug 2023 – May 2024*
Project for the International Center for Tropical Agriculture (CIAT): data-driven analysis of food insecurity drivers and hazards; results published in *Scientific Reports* (2025).
Supervisor: Prof. Giuliano Resce

Junior Expert in Policy Evaluation – *Eutalia S.p.A.* — *Apr 2023 – Dec 2023*
Evaluation plan and impact evaluation of *PON Research and Innovation 2014–2020.*
Coordinator: Prof. Francesco Prota

TEACHING

Teaching Assistant – *University of Molise* — *2022 – Present*
Since 2022: Monetary and Financial Economics and Policy; Macroeconomics; Industrial Economics and Game Theory; Microeconomics; Cost-Benefit Analysis; Economic Policy.
Since 2025: Applied Health Economics; Public Economics.

CONFERENCE PRESENTATIONS & WORKSHOPS

- **SIE 2026** – 67th Annual Scientific Meeting of the *Italian Economic Association (Società Italiana di Economia)*, Università di Cagliari, 22–24 October 2026. *Presenter.*
- **CARMA 2026** – 8th Int. Conf. on Advanced Research Methods and Analytics, Universitat Politècnica de València, 1–3 July 2026. *Presenter.*
- **AISRe 2026** – XLVII Annual Scientific Conference of the *Italian Regional Science Association* (RSAI Italian Section),

Università di Firenze, 24–26 June 2026. *Presenter.*

- **Understanding and Addressing Digital Inequalities** – Annual Scientific Conference on Digital Democracy, *Centre for a Digital Society, European University Institute (EUI)*, Florence, 20–21 November 2025. *Presenter.*
- **SIE 2025** – 66th Annual Scientific Meeting of the *Italian Economic Association (Società Italiana di Economia)*, Università di Napoli Parthenope, 23–25 October 2025. *Presenter.*
- **AISRe 2025** – XLVI Annual Scientific Conference of the *Italian Regional Science Association* (RSAI Italian Section), Università "G. d'Annunzio" Chieti-Pescara, 10–12 September 2025. *Presenter.*
- **CARMA 2025** – 7th Int. Conf. on Advanced Research Methods and Analytics, Rome, 2–4 July 2025. *Presenter.*
- **CARMA 2024** – 6th Int. Conf. on Advanced Research Methods and Analytics, Valencia, 26–28 June 2024. *Presenter.*

ACADEMIC SERVICE

Referee for: The Annals of Regional Science† · Italian Economic Journal† · Research in International Business and Finance† · PLOS ONE† · Journal of Infrastructure, Policy and Development · The B.E. Journal of Economic Analysis & Policy†.
† ANVUR Class A journal (Area 13).
Conference organization: CARMA 2025 (Rome) · CARMA 2024 (Valencia) · HEAd'24 – 10th Int. Conf. on Higher Education Advances.

POLICY REPORTS & DISSEMINATION

- Carneiro, B., Resce, G., Fannelli, L., Ruscica, G., Gomes, F., & **Santangelo, A. E.** (2024). *Climate security narratives among ClimBeR partners: A web analytics approach to measure influence and reach of ClimBeR's WP2.* Report, CGIAR Climate Resilience Initiative (ClimBeR). [Link]
- *PON Research and Innovation 2014–2020 – Final Evaluation Report.* [Link]
- Eticaeconomia: *In cosa investe l'Unione Europea? Un'analisi di Text Mining sui progetti di coesione.* [Link]

ADVANCED TRAINING

Geospatial & Earth Observation Data

- **EO Summer School** – *Satellite Data in Agricultural and Environmental Economics* (University of Milan, 2026): remote sensing and Google Earth Engine (Land Economics Group, University of Bonn).
- **NASA ARSET** – *Fundamentals of Remote Sensing* and *Hyperspectral Data for Land and Coastal Systems* (NASA Applied Remote Sensing Training Program, 2026).
- DataCamp – *Working with Geospatial Data in Python* (GeoPandas, spatial joins, projections, overlays, raster data; 2026).

Econometrics, Causal Inference & Policy Evaluation

- 6th Summer School in Advanced Economics – *Modern Causal Inference* (Prof. J. M. Wooldridge, Prof. P. Sant'Anna; University of Ioannina, Spetses, 2025).
- LSE Summer School – *Advanced Econometrics* (Dr. M. Schafgans, Dr. M. Gmeiner, 2025).
- SIdE – *Introductory Econometrics* (Prof. G. Calzolari, 2024) and *Panel Data Econometrics* (Prof. M. E. Bontempi, Prof. R. Golinelli, Dr. I. Mammi, 2024).
- *Evaluation of Development Policies* (Prof. P. Montalbano, Prof. F. C. Rosati, Prof. C. Pietrobelli, 2023).

Data Science, Machine Learning & Big Data

- SoBigData Academy Camp – *Data Science, Machine Learning, Data Ethics and Social Data Analysis* (SoBigData Research Infrastructure, 2026).
- LSE Summer School – *Applied Econometrics and Big Data* (Prof. T. Komarova, Dr. M. Schafgans, 2025).
- DataCamp – *Web Scraping in Python* and *Web Scraping in R* (2026).
- SAS Training – *Data organization and loading for SAS Visual Analytics* (2025).
- Harvard Online *Professional Certificate in Data Science* (2023).

SKILLS, LANGUAGES & AWARDS

Programming & tools: R, Stata, Python, Google Earth Engine, ArcGIS, QGIS, Web GIS, LaTeX.
Languages: Italian (native), English (C1), Spanish (B1).
Awards: *America Giovani* Prize, Fondazione Italia USA – top 1,000 Italian graduates for academic excellence (2019).
Memberships: Società Italiana di Economia (SIE) · Associazione Italiana di Scienze Regionali (AISRe).
